

EYEBROWS

Carly is passionate and driven to be at the top of her field in digital micro pigmentation. Regular training to keep ahead of the trends and thousands of treatments performed means you are in safe hands. Carly believes cosmetic tattooing should look natural not noticeable and as such will work with your natural features and colourings to create the perfect enhancement for you.

ALKALINE WASH

Ultimate pain free downy hair removal! DMK Alkaline Wash system takes hair to a highly alkaline level, dissolving the hair and part of the underlying follicle. After your first treatment, the hair will grow back at its normal rate, but as treatments progress the hair regrowth rate will become slower and the hair will weaken, usually resulting in permanent loss over a period of time. The treated area can appear red and warm for a short time after treatment.
